The Chapter Winter Meeting is available both live and via webinar. Click on the image for more information:

#### MILD TO MODERATE ATOPIC DERMATITIS: Pathogenesis and Therapeutic Strategies for Improved Outcomes

How effectively are you managing your pediatric patients with mild to moderate pediatric atopic dermatitis?

**PROGRAM OVERVIEW**  
This live meeting will address several important clinical practice gaps related to atopic dermatitis, including diagnosis, the importance of proper skin care in improving skin barrier dysfunction and reducing frequency of flare-ups, current knowledge of inflammatory pathways that contribute to the pathogenesis of atopic dermatitis, as well as the
