

IDAHO AAP

Making a Difference for our Kids

IDAHO PARENTS UNLIMITED  INC.

SERVING IDAHO FAMILIES WITH
EXCEPTIONAL CHILDREN SINCE 1985

Many may already be aware of IPUL, however, they may not be aware of all of our program areas and how we can be a resource to them when working with families. IPUL is a statewide nonprofit organization that houses the Idaho Parent Training and Information Center, the Family to Family Health Information Center, Idaho Family Voices, and VSA Idaho, the State Organization on Arts and Disability.

We work with families from birth to adulthood whose children have any diagnosis or who may be undiagnosed to provide information that will help them navigate the school system as well as community services. Our core focus areas are special education, health information, and the arts. We receive funding through the US Department of Education, the Health Resources Services Administration, the Idaho State Department of Education, the Idaho Commission on the Arts, Idaho Division of Vocational Rehabilitation, and National Family Voices to ensure that our services are available at no cost to parents.

Our programs allow us to assist families to understand health systems, locate specialists, navigate the special education process, and provide high-quality arts education to ensure successful and

healthy transitions to adulthood among many other services. We offer workshops, webinars, and 1:1 assistance, and we are always happy to collaborate with the professionals and services providers who serve these families.

Idaho Parents Unlimited's programs fulfill a mission to educate, empower, support, and advocate for individuals with disabilities and their families.

More information can be found on our website at: <http://www.ipulidaho.org>
